CRICKET STADIUM MANAGEMENT & COACHING SYSTEM(CSM&CS)

Date: 16/02/2019
Guide: Ms.Jetty Benjamin

1. *Project Overview?*

Cricket Club Management System is the software application developed for clubs that provides and manages various club activities. The existing system of cricket club management is not very efficient and consumes a lot of time as all the processes are done manually.

The proposed Cricket Club Management System is completely automated. The proposed system allows the user to book ground for various days, request for club membership and register for the various training batches. The system works under the control of the administrator. All the users:members,coaches and other online users can book both stadium and seats for a particular program.Less effort is required for maintaining the database of club using this software.

2. *To what extend the system is proposed for?*

The system is proposed to develop an online system with improved facilities. The system provides proper security and reduces the manual work. The users can place their coaching and do tickets booking online. The most important thing is users will get high quality coaching under wellknown coaches at the time as they wish. This system provides high security, high speed and Greater efficiency. By using this system users can make ticket booking , coaching in efficiently in least time.
